

# RITIK KAMWAL

## Full Stack Developer

Chhatarpur, Delhi, India | +91 7988228787 | ritikkamwal797@gmail.com  
LinkedIn: linkedin.com/in/ritik-kamwal-9968b4250 | GitHub: github.com/Ritik01417

### PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience across the MERN stack and React Native, plus a background in technical support and software enhancement. Skilled in building REST APIs, responsive web and mobile applications, and working with both SQL and NoSQL databases. Strong problem-solving ability, quick to debug production issues, and focused on delivering clean, maintainable, and scalable code.

### TECHNICAL SKILLS

**Languages:** JavaScript, HTML5, CSS3

**Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, React Native (Expo)

**Databases:** MySQL, PostgreSQL, MongoDB

**Other:** REST API Development, Git & GitHub, Debugging & Production Support

### PROFESSIONAL EXPERIENCE

**Full Stack Developer** | Sarabhai IT Pvt. Ltd.

**July 31, 2025 – Present**

- Develop and maintain full stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Design and implement RESTful APIs to support front-end features and third-party integrations.
- Build responsive, user-friendly interfaces in React.js, focusing on performance and cross-browser compatibility.
- Collaborate with cross-functional teams to gather requirements, plan sprints, and deliver features on schedule.
- Write clean, reusable, and well-documented code following industry best practices.

**Technical Support Executive (Internship)** | Orikam Healthcare India Pvt. Ltd.

**April 2024 – November 2024**

- Provided technical support for Nanopix software, identifying and resolving software bugs to improve reliability.
- Collaborated with the development team on MERN Stack development, contributing to coding, feature implementation, and application enhancements.
- Contributed to reducing issue turnaround time through effective troubleshooting and root-cause analysis.

### PROJECTS

**Key Company Projects:**— React.js & React Native (Expo) with Express.js and PostgreSQL

- Built an internal Enterprise Management Tool from scratch, comprising multiple micro-applications: Asset Management, Ticketing Management, a CRM module for sales tracking and sales performance, and Employee Onboarding.
- Built a Work Permit system for client operations to manage permit requests and approvals and rejects in which manage client data with permit completion rate and manage attendance system with dashboard and report generation according to filter applied.
- Developed a Help Desk system with SLA (Service Level Agreement) tracking for client support requests. Build dashboard and reports section of client requests.

**News App** — React Native (Expo), MMKV, News API, MongoDB

- Developed a mobile news application with category-based filtering and article search using the News API.
- Implemented save-for-later article functionality and a user profile section for managing account details.
- Used MMKV for fast local storage and MongoDB as the backend database for user data.

**Library Management System** — java, Jfame MySQL

- Develop this project for my final year project in my Graduation.

### EDUCATION

**Master of Computer Applications (MCA)** — Graduate Govt. College, Sector-9 (Gurugram University), CGPA: 7.3, 2023 – 2025

**Bachelor of Computer Applications (BCA)** — DPGITM College (MDU University), CGPA: 7.3, 2020 – 2023

**Intermediate (12th)** — HBSE Board, 72.4%, 2018 – 2019

**Matriculation (10th)** — HBSE Board, 75.2%, 2016 – 2017

### ACHIEVEMENTS & CERTIFICATIONS

- Secured Top 10 ranking in the State Level Hackathon organized by ICC DCRUST.
- Winner, Science Quiz Competition (Inter College).
- Certified in Python — Besant Technologies.
